

Twin Tyre Multi Plug

www.ik-uk.com
www.royalmechgroup.com

Pipe Schedule: VARIOUS

Size Range: 2" through 24" (Larger sizes on request)

It is often very difficult to create a safe environment for performing hot work on existing pipelines carrying hydro-carbon resources.

IK-UK's Twin Tyre Multi Plug is a simple, reliable and economical tool for providing positive and proven isolation before hot work commences. It is also capable of hydrostatically testing any new welds afterwards – being a significant cost saving.

IK-UK's Twin Tyre Multi Plug is presently used at many UK Refineries.

For further information please contact our Sales Team.

General Function and Application

- Double isolation via two tyres
- Central by-pass facility to vent gasses
- Can hold up to 30 bar between tyres - 76.5 bar on request
- Will hold a line pressure of 3 bar.g
- Can be used in a range of pipe schedules
- Provides a safe working environment
- Instructions and hydrostatic test certificates supplied
